WORK HISTORY

Amazon

Seattle, WA – 05/2016 to Present

Technical Sourcer | Amazon Digital Entertainment

- Support a recruitment team responsible for hiring engineering leaders across multiple businesses at Amazon.
- Directly contribute to a technical training course of new technical recruiters (project ongoing).
- Refined and optimized reach-outs through A/B experimentation, resulting in >30% response rates, on average.
- Created SCRUM boards and sprints for multiple projects in collaboration with Software Development Managers.
- Write comprehensive one-pagers to outline program objectives and forecast annual program goals.
- Develop and sustain partnerships across multiple Amazon orgs to ensure positive, customized candidate experiences.
- Utilized engineering SMEs to enhance searching methods and candidate interactions.
- Launched employee referral campaign for Amazon Video, and led all creative branding and advertising efforts.
- Evangelized agile methodologies to concentrate productivity and fill high-priority positions in two-week sprints.

Rylem Consulting

Seattle, WA – 08/2015 to 05/2016

Technical Sourcer

- Responsible for full lifecycle recruitment of Software Development Engineers for external clients and vendors.
- Highly active in interviews and recruitment of prospective internal employees.
- Staffed an entire start-up's engineering team, including Software Architect, Web Developer, and Back-end Engineer.
- Led candidate success ratios across entire technical recruitment team within 4 months of employment.
- Responsible for data-driven metrics reports, tracking activity patterns and best practices.

Bellevue College

Bellevue, WA – 09/2014 to 06/2015

Program Coordinator (Graduate Internship) | Faculty Commons

- Launched new UX-focused faculty website for BC faculty to access and register for development programs.
- Reported attendance and program completion data to director, tracked all departmental certifications.
- Aided in the development of multiple faculty training programs about e-learning and curriculum design.
- Created the first document archive for faculty training resources and materials.
- Led department branding and advertising for inaugural Teaching & Learning conference.
- Executed high impact projects within tight deadlines, including conference expense reports, program evaluations, and quarterly certifications updates.
- Reduced conference costs by ~25%, owning design of all creative materials and optimizing conference schedule.

University of Washington

Seattle, WA – 09/2012 to 06/2014

Research Assistant | Department of Psychology

- Conducted interviews and administered online surveys for computer simulated research studies.
- Responsible for data entry and quality assurance of vast data sets, using Excel and IBM SPSS.
- Researched diversity, workplace practices, and social policies in corporate environments.
- Contributed to survey data gathering and data coding for final analysis.
